

## **Montana AIS Statutes**

*Compiled 10/13/15*

### **Mont. Code Ann. Tit. 80, Ch. 7, Part 10 (Aquatic Invasive Species)**

#### **§ 80-7-1001. Short title.**

This part may be cited as the “Montana Aquatic Invasive Species Act”.

#### **§ 80-7-1002. Legislative findings and purpose.**

(1) The legislature finds that:

- (a) invasive species can wreak damage on the economy, environment, recreational opportunities, and human health in Montana;
- (b) there is reason to be concerned about the further introduction, importation, and infestation of Eurasian watermilfoil (*Myriophyllum spicatum*) and the introduction, importation, and infestation of additional invasive species in Montana, such as the zebra mussel (*Dreissena polymorpha*) and the quagga mussel (*Dreissena bugensis*), that could cause catastrophic damage to not only our waterways, rivers, and lakes, our water storage, delivery, and irrigation systems, our hydroelectric power structures and systems, and our aquatic ecosystems, but also to the entire state economy;
- (c) as infestations of threatening invasive species move ever closer to Montana's borders, protecting Montana against these species is of utmost importance to the state economy, environment, recreational opportunities, and human health for the benefit of all Montanans;
- (d) preventing the introduction, importation, and infestation of invasive species is the most effective and least costly strategy for combating invasive species that, once established, are often difficult to control or eradicate;
- (e) the use of check stations, at which vessels and equipment may be inspected for the presence of invasive species and cleaned if an invasive species is detected, is an effective way to prevent the introduction, importation, and infestation of invasive species that are easily transferred from infested areas to uninfested areas when proper precautions are not taken; and
- (f) preventing the introduction, importation, and infestation of invasive species is best accomplished through coordinated educational and management activities.

(2) The purpose of this part is to establish a mechanism for Montana to take concerted action to detect, control, and manage invasive species, including preventing further introduction, importation, and infestation, by educating the public about the threat of these species, coordinating public and private efforts and expertise to combat these species, and authorizing the

use of check stations to prevent the movement of invasive species from infested areas to uninfested areas to protect the state's economy, environment, recreational opportunities, and human health for the benefit of all Montanans.

**§ 80-7-1003. Definitions.**

As used in this part, the following definitions apply:

- (1) "Departments" means the department of agriculture, the department of fish, wildlife, and parks, the department of natural resources and conservation, and the department of transportation.
- (2) "Equipment" means an implement or machinery that has been wholly or partially immersed in surface waters, including but not limited to boat lifts, trailers transporting vessels, floating docks, pilings, dredge pipes, and buoys.
- (3) "Invasive species" means, upon the mutual agreement of the directors of the departments, a nonnative, aquatic species that has caused, is causing, or is likely to cause harm to the economy, environment, recreational opportunities, or human health.
- (4) "Invasive species management area" means a designation made by a department under 80-7-1008 for a specific area or for a body or bodies of water for a specific or indeterminate amount of time that regulates invasive species or potential carriers of invasive species within the boundaries of that area.
- (5) "Person" means an individual, partnership, corporation, association, limited partnership, limited liability company, governmental subdivision, agency, or public or private organization of any character.
- (6) "Vessel" has the meaning provided in 61-1-101.

**§ 80-7-1004. Invasive species account.**

- (1) There is an invasive species account in the state special revenue fund. The account is administered by the department of fish, wildlife, and parks.
- (2) Money transferred from the general fund or received from any other lawful source, including but not limited to gifts, grants, donations, securities, or other assets, public or private, may be deposited in the account.
- (3) Subject to subsection (4), money deposited in the account must be used for projects that prevent or control any nonnative, aquatic invasive species pursuant to this part.
- (4) Any private contribution deposited in the account for a particular purpose, as stated by the donor, must be used exclusively for that purpose.

(5) Any interest and earnings on the account must be retained in the account.

**§ 80-7-1005. Cooperative agreement for invasive species detection and control.**

(1) In order to implement, administer, and accomplish the purposes of this part, the departments, collectively or individually, shall enter into a cooperative agreement with each other or may enter into an agreement with any person with the appropriate expertise and administrative capacity to perform the obligations of the agreement.

(2) Prior to entering an agreement with a person other than a department, the departments shall work in collaboration with each other to coordinate their respective responsibilities in order to further the purposes of this part.

(3) A cooperative agreement may include provisions for funding to implement the agreement.

**§ 80-7-1006. Departmental responsibilities.**

(1) The departments shall prepare a list of invasive species and identify those departments and other public agencies with jurisdiction over each species on the list. The jurisdiction of each department for the prevention and control of invasive species is according to the department's powers and duties as established by law.

(2) For those invasive species under the jurisdiction of more than one department, the departments with jurisdiction, through cooperative agreement, shall seek to clarify and coordinate their respective responsibilities.

(3) Working in collaboration with each other, the departments, individually or collectively, shall develop and adopt an invasive species strategic plan or plans to accomplish the purposes of this part. The plan or plans shall identify and prioritize threats and determine appropriate actions, in the following order of priority, related to:

(a) public awareness and education;

(b) prevention and detection of invasive species, including the use of invasive species management areas authorized under 80-7-1008 and the statewide invasive species management area established in 80-7-1015;

(c) management, control, and restoration of infested areas; and

(d) emergency response.

(4) The departments shall enforce quarantine regulations and measures imposed by law or rule in an invasive species management area established under 80-7-1008 and in the statewide invasive species management area established in 80-7-1015, including the mandatory inspection of any interior portion of a vessel or equipment that may contain water for the presence of an invasive species.

(5) The departments may designate employees to carry out the provisions of this part.

(6) The department of fish, wildlife, and parks shall authorize a request by another entity to operate a check station pursuant to this part if the entity agrees to the conditions of an agreement established by all parties, any cooperative funding requirements, and rules adopted under this part. The department of fish, wildlife, and parks retains oversight authority over the operation of a check station pursuant to this subsection.

(7) The departments shall implement education and outreach programs that increase public knowledge and understanding of prevention, early detection, and control of invasive species.

**§ 80-7-1007. Rulemaking authority.**

(1) Unless otherwise provided in Title 81, chapters 2 and 7, or this chapter, each of the departments may adopt rules for the prevention, early detection, and control of invasive species under the departments' jurisdiction, including rules for the:

(a) implementation of the invasive species strategic plan adopted pursuant to 80-7-1006;

(b) transportation of an invasive species or any agent likely to be a carrier of an invasive species;

(c) designation, regulation, and treatment of an invasive species management area under 80-7-1008, including rules pertaining to:

(i) the use of quarantine regulations and measures;

(ii) the movement of vessels and equipment within, to, or from the area; and

(iii) the inspection and cleaning of vessels and equipment moving within, to, or from the area; and

(d) manner in which vessels and equipment, including bilges, livewells, bait containers, and other boating-related equipment, traveling in the state must be cleaned to ensure that they are free from the presence of an invasive species.

(2) The departments shall adopt rules for the administration of the statewide species management area established in 80-7-1015, including rules specifying the method or methods for preventing the introduction or further introduction of invasive species into the state, and shall adopt rules for:

(a) the use of quarantine measures;

(b) the movement of vessels and equipment into the state; and

(c) the manner in which check stations will be used to inspect, clean, and decontaminate vessels and equipment moving into the state.

**§ 80-7-1008. Invasive species management area -- authorization.**

(1) Except as provided in 80-7-1015, when an invasive species is identified as infesting or threatening an area, the department with jurisdiction over that invasive species may designate and administer an invasive species management area for a specific area of land or for a body or bodies of water for a specific or indeterminate amount of time to prevent and control the infestation or spread of that invasive species.

(2) To the extent practicable, prior to the designation of an invasive species management area, the department making the designation shall coordinate with all of the departments in order to further the purposes of this part.

(3) The designation of an invasive species management area must specify:

(a) the invasive species present or considered threatening; and

(b) the method or methods for preventing the introduction of the species or controlling or eradicating the species, including regulations pertaining to:

(i) the use of quarantine measures;

(ii) the movement of vessels and equipment within, to, and from the area; and

(iii) whether check stations will be used to inspect and clean vessels and equipment moving within, to, or from the area. A department may conduct mandatory inspections of any interior portion of a vessel or equipment that may contain water only if the department has included the use of mandatory inspections as part of quarantine measures established pursuant to subsection (3)(b)(i).

(4) As far as practical, signs indicating that an invasive species management area is in place must be posted in an effective manner at access points to the designated area and along the boundaries and within the area. The signs must include information about the specific regulations that apply to the area. The signs must be paid for with funds from the invasive species account established in 80-7-1004. The departments may coordinate with any other governmental entity for the posting of signs.

**§ 80-7-1009. Arrangements with landowners.**

(1) The department designating an invasive species management area pursuant to 80-7-1008 shall work cooperatively with any affected land managers and landowners within the boundaries of the designated area to establish prevention, treatment, control, and eradication methods best suited for the invasive species infesting or threatening the area.

(2) If negotiations with a land manager or landowner fail, the designating department may arrange for the prevention, treatment, control, and eradication of the designated species as it relates to water infrastructure, including but not limited to hydroelectric, municipal, recreational, and irrigation equipment, without the consent of the land manager or landowner. To the extent possible, the arrangements by the department must be made in a manner best suited to preventing, treating, controlling, and eradicating the invasive species, while minimizing disturbances and adverse impacts to the landowner.

**§ 80-7-1010. Invasive species management area -- regulation.**

(1) The owner, operator, or person in possession of any vessel or equipment authorized for use in an invasive species management area shall comply with any regulations imposed pursuant to 80-7-1008(3)(b).

(2) After use in a body of water within an invasive species management area, all vessels, equipment, bait containers, livewells, bilges, and other boating-related equipment, excluding marine sanitary systems, must be drained in a way that does not impact any state waters before being transported on land or a public highway, as defined in 61-1-101, except where allowed by the department of fish, wildlife, and parks.

**§ 80-7-1011. Check stations.**

(1) The departments shall establish a check station within or adjacent to an invasive species management area to prevent the introduction, importation, infestation, and spread of the invasive species for which the designation was issued.

(2) At a check station established under subsection (1), the departments may examine vessels and equipment for the presence of an invasive species and compliance with regulations imposed under 80-7-1008(3)(b) and with this section. A department may examine any interior portion of a vessel or equipment that may contain water, including bilges, livewells, and bait containers, for compliance only if inspection of interior portions is included as part of quarantine measures established pursuant to 80-7-1008(3)(b)(i).

(3) The owner, operator, or person in possession of a vessel or equipment shall stop at any check station unless a medical emergency makes stopping likely to result in death or serious bodily injury.

(4) If during an inspection of a vessel or equipment the presence of an invasive species is detected, that vessel or equipment may not leave the check station without authorization until it is cleaned and decontaminated in a manner established in accordance with 80-7-1008(3)(b). The department shall make every effort to ensure decontamination of the vessel or equipment as expeditiously as possible.

**§ 80-7-1012. Invasive species possession and transfer prohibited -- exceptions.**

(1) Except as provided in subsection (2), a person may not import, purchase, sell, barter, distribute, propagate, transport, introduce, or possess an invasive species except:

(a) when transporting a specimen to any of the departments or another destination as directed by any of the departments in a sealed container for the purpose of containing, identifying, or reporting the presence of the species or for an approved educational purpose;

(b) when done by a government agency for an approved purpose;

(c) with a proper permit issued by the state or federal government; or

(d) as allowed by rule.

(2) A person who learns of the presence of an invasive species on that person's vessel or property shall notify the department with primary jurisdiction of the species immediately. If the person complies with department requirements for the treatment, control, and eradication of the invasive species, the person must be considered to be in compliance with this section and is not subject to penalties under 80-7-1014. This subsection does not apply to a person who purposely or knowingly introduces or attempts to introduce an invasive species in Montana.

#### **§ 80-7-1013. Emergency response.**

(1) The governor may declare an invasive species emergency if:

(a) the introduction or spread of an invasive species has occurred or is imminent;

(b) a new and potentially harmful invasive species is discovered in the state and is verified by the departments; or

(c) the state is facing a potential influx of invasive species as the result of a natural disaster.

(2) If an emergency is declared pursuant to subsection (1), the governor may authorize the expenditure of funds pursuant to 10-3-312.

(3) In the absence of necessary funding from other sources, the principal of the invasive species trust fund established in 80-7-1016 may be appropriated by a vote of three-fourths of the members of each house of the legislature to government agencies for emergency relief to eradicate or confine the new invasive species or to protect the state from an influx of invasive species due to a natural disaster.

#### **§ 80-7-1014. Penalty.**

(1) Except as provided in subsection (2), the following penalties apply:

(a) The offense of negligently violating the provisions of 80-7-1010 through 80-7-1012 and 80-7-1015 or rules adopted under 80-7-1010 through 80-7-1012 and 80-7-1015 pertaining to

an invasive species management area or the statewide invasive species management area is a misdemeanor punishable by a fine not to exceed \$500.

(b) The offense of purposely or knowingly violating the provisions of 80-7-1010 through 80-7-1012 and 80-7-1015 or rules adopted under 80-7-1010 through 80-7-1012 and 80-7-1015 pertaining to an invasive species management area or the statewide invasive species management area is a misdemeanor punishable by a fine not to exceed \$1,000.

(c) Purposely or knowingly attempting to introduce an invasive species in Montana is a felony. Any person found guilty under this subsection (1)(c) is subject to a criminal penalty of up to 2 years in prison, a fine not to exceed \$5,000, or both. A person convicted of violating this subsection (1)(c) may also be required to pay restitution for any cost incurred to mitigate the effect of the violation.

(d) A civil penalty not to exceed \$250 may be imposed on any person who violates any other provision of 80-7-1010 through 80-7-1012 and 80-7-1015 or rules adopted under 80-7-1010 through 80-7-1012 and 80-7-1015 not enumerated in subsections (1)(a) through (1)(c).

(2) A warning without penalty may be issued to any person violating the provisions of 80-7-1010 through 80-7-1012 and 80-7-1015 or rules adopted under 80-7-1010 through 80-7-1012 and 80-7-1015 if it is determined that a warning best serves the public interest.

(3) Civil penalties collected under this section must be deposited in the general fund.

#### **§ 80-7-1015. Statewide invasive species management area.**

(1) There is established a statewide invasive species management area for the purpose of preventing the introduction, importation, and infestation of invasive species through the mandatory inspection of vessels and equipment at key entry points to the state on a seasonal basis and the mandatory decontamination of any vessel or equipment on or in which an invasive species is detected.

(2) To the greatest extent possible, the department of transportation shall cooperate with the department of fish, wildlife, and parks to utilize ports of entry or adjacent department of transportation facilities as locations for check stations established pursuant to this section.

(3) As far as practical, signs indicating that the statewide invasive species management area is in place must be posted in an effective manner along the boundaries of and within the state. The signs must include information about the specific regulations that apply to the area. The signs must be paid for with funds from the invasive species account established in 80-7-1004. The departments may coordinate with any other governmental entity for the posting of signs.

(4) At a check station established pursuant to this section, the departments may examine vessels and equipment for the presence of an invasive species and compliance with this section and rules adopted pursuant to 80-7-1007. A department may examine any interior portion of a vessel or equipment that may contain water, including bilges, livewells, and bait containers, for

compliance only if inspection of interior portions is included as part of quarantine measures established pursuant to rules adopted under 80-7-1007.

(5) The owner, operator, or person in possession of a vessel or equipment shall:

(a) comply with this section and rules imposed under 80-7-1007; and

(b) stop at any check station established pursuant to this section unless a medical emergency makes stopping likely to result in death or serious bodily injury.

(6) If during an inspection of a vessel or equipment the presence of an invasive species is detected, that vessel or equipment may not leave the check station without authorization until it is cleaned and decontaminated in a manner established in accordance with rules adopted pursuant to 80-7-1007. The department shall make every effort to ensure decontamination of the vessel or equipment as expeditiously as possible.

(7) After use in a body of water within the statewide invasive species management area, all vessels, equipment, bait containers, livewells, bilges, and other boating-related equipment, excluding marine sanitary systems, must be drained in a way that does not impact any state waters before being transported on land or on a public highway, as defined in 61-1-101, except when allowed by the department of fish, wildlife, and parks.

#### **§ 80-7-1016. Invasive species trust fund.**

(1) There is an invasive species trust fund. The board of investments shall invest the money of the fund, and the investment income must be deposited in the fund.

(2) The principal of the invasive species trust fund shall forever remain inviolate in an amount of \$10 million unless appropriated by a vote of three-fourths of the members of each house of the legislature.

(3) Except as provided in 80-7-1013 and subsections (2) and (4) of this section, money deposited in the invasive species trust fund may not be appropriated until the principal reaches \$10 million.

(4) On July 1 of each fiscal year, the principal of the invasive species trust fund in excess of \$10 million and the interest and income generated from the trust fund, excluding unrealized gains and losses, must be deposited in the invasive species grant account established in 80-7-1017.

(5) Deposits to the principal of the trust fund may include but are not limited to grants, gifts, transfers, bequests, or donations from any source.

(6) If the invasive species trust fund is terminated, the money in the fund must be divided between all counties according to rules adopted by the department of natural resources and conservation for that purpose.

#### **§ 80-7-1017. Invasive species grant account.**

(1) There is an invasive species grant account in the state special revenue fund established in 17-2-102. Subject to appropriation by the legislature, money deposited in the account must be used pursuant to 80-7-1018 and this section.

(2) Deposits to the account may include but are not limited to grants, gifts, transfers, bequests, donations, appropriations from any source, and deposits made pursuant to 80-7-1016.

(3) Interest and income earned on the account and any unspent or unencumbered money in the account at the end of a fiscal year must remain in the account.

(4) Money deposited in the account may be used for costs incurred by the department of natural resources and conservation to administer the provisions of 80-7-1016 through 80-7-1018. Except for startup costs incurred in the first year of the program, the administrative costs in any fiscal year, including but not limited to personal services and operations, may not exceed 10% of the total amount of grants and contracts awarded pursuant to 80-7-1018 in the previous fiscal year.

**§ 80-7-1018. Invasive species grant program -- criteria -- rulemaking.**

(1) Money deposited in the invasive species grant account established in 80-7-1017 may be expended by the department of natural resources and conservation through grants to or contracts with communities or local, state, tribal, or other entities for invasive species management.

(2) For the purposes of this section, the term "invasive species management" includes public education and planning, development, implementation, or continuation of a program or project to prevent, research, detect, control, or, where possible, eradicate invasive species.

(3) A grant or contract may be awarded under this section for demonstration of and research and public education on new and innovative invasive species management.

(4) In making grant and contract awards under this section, the department of natural resources and conservation shall give preference to local governments, collaborative stakeholders, and community groups that it determines can most effectively implement programs on the ground.

(5) If the governor appoints an advisory council on invasive species, the department of natural resources and conservation shall consider recommendations by the advisory council for awards made under this section.

(6) The department of natural resources and conservation is not eligible to receive grants and contracts under this section.

(7) The department of natural resources and conservation may accept federal funds for use pursuant to this section.

(8) Any funds awarded under this section, regardless of when they were awarded, that are not fully expended upon termination of a contract or an extension of a contract, not to exceed 1 year,

must revert to the department of natural resources and conservation and be deposited in the invasive species grant account established in 80-7-1017. The department of natural resources and conservation shall use any reverted funds to make future awards pursuant to this section.

(9) The department of natural resources and conservation may adopt rules to administer the provisions of 80-7-1016 through 80-7-1018.

**§ 80-7-1019. Enforcement.**

A peace officer, as defined in 45-2-101, may:

(1) stop the driver of a vehicle transporting a vessel or equipment on receiving a complaint or observing that the driver failed to stop at a check station as required under this part;

(2) upon particularized suspicion that a vessel or equipment is infested with an invasive species, require the driver of a vehicle transporting a vessel or equipment to submit the vessel or equipment to an inspection. The peace officer may conduct mandatory inspections of any interior portion of a vessel or equipment that may contain water for compliance with this part and rules adopted under this part only if:

(a) the peace officer obtains a search warrant, as defined in 46-1-202; or

(b) the vessel or equipment is physically located within the boundaries of an invasive species management area established under 80-7-1008 or the statewide invasive species management area established in 80-7-1015 and use of mandatory inspections has been included in quarantine measures established pursuant to 80-7-1008(3)(b)(i) or rules adopted under 80-7-1007.

(3) cite a person for a violation of this part.
